SWING GATE OPERATOR

SOLAR POWER

700_{LBS} CAPACITY

RESIDENTIAL
CLASS I VEHICULAR GATE OPERATOR

The first of its kind. The first swing gate operator that combines performance and efficiency. The first with verified performance by UL (Underwriters Laboratory) certifying up to 100 cycles per day with a 10 Watt solar panel. The first and only, Viking R-6s solar operator.

SOLAR POWER MANAGEMENT SYSTEM

- Viking Solar Power Management System maximizes the number of cycles per day.
- Power Saving Technology minimizes current draw.
- Sleep Mode for non- essential accessories minimizes current draw on stand-by.
- Most advanced Charger Systems in the industry.

LIGHTNING PROTECTION

- Advance lightning strike protection up to 20,000 volts/ 10,000 amps.

PROTECTION

- G90 Galvanized
- Clear Zinc Plating
- UV Rated Powder Coating

SOLAR PANEL

- Single 12V Solar Panel System.

BATTERY

- Single 12V Battery System.

DIAGNOSTICS DISPLAY

- Real-Time Status Display of solar panel, charging and battery voltages.
- Monitoring and Diagnostic Display ensures easy troubleshooting.

Operational Voltage	... 12 VDC
Max Gate Capacity	... 700lbs / 14ft
Cycles Per Day	... up to 100 cycles per day (10 Watt Panel)
Operating Speed	... 13-16 seconds per 90°
Operating Temperature	... - 20° F to +160° F

WARRANTY:
5 YEAR RESIDENTIAL
